SUMMARY

As a UI designer and front-end developer, I bridge the gap between creative vision and technical execution. I specialize in crafting intuitive interfaces through wireframing and prototyping in Figma, Sketch, and Adobe XD, Photoshop. I then bring those designs to life with clean, efficient HTML5, CSS3, and Basic JavaScript. I am eager to apply this skill set to a new and challenging opportunity.

PAST EXPERIENCE

Mar 2023 - Aug 2024

Tamil Voice Process\Telecaller
Cameo Corporate Service LTD

- I worked as a telecaller at Cameo Corporate Services, specifically handling Airtel MNP services."
- I am skilled at explaining the MNP process and highlighting the benefits of remaining on the Airtel network.
- I am skilled at handling customer inquires related to Sim card activation and porting..
- And i am familiar with the MNP process and can explain it clearly to customers and convince customers to stay with airtel.

Sep 2024 - May 2025

Tamil Voice Process\Telecaller
Lane consultancy

- I worked as a senior caller for debit card services. My main task was to call customers with outstanding payments and recover the money owed
- Steps in the Banking Process for Credit Card Recovery. Sometimes involved dealing with difficult situations and using a firm tone to ensure payment
